Retrieve

Retrieve of a Thrown Object

12 points

Description of the exercise

The time allowed for the Retrieve of the Object is 15 seconds. The object will be chosen by a drawing, prior to the start of the trial, from a list given to the Judge (dumbbell, ninepin, cylinder, plastic bottle, small bag, stroller wheel, etc.). The dog must be able to hold it in his mouth, and the maximum weight is 1 kg. All glass or metal objects are forbidden.

Account of the exercise

- *On the Judge' s signal, the object must be thrown at least 5 m.*
- *After the Judge' s signal, the handler may command the dog to search for the object. Only one recall command is allowed.*
- *The handler will wait for the horn at the end of the exercise before leaving his place.*

The Retrieve object in Mondioring is selected by the judge from an array of six items presented by the hosting club. (In Brevet, the handler may use ' a personal article' as the retrieve object) There is a point deduction for mouthing the item. Dog is not judged by how correctly it sits in front of the handler, but it is expected to sit. It can sit in front, or at the side.

The following is a list of retrieve items used in various trials over the past few years:

- A toilet plunger (new!)
- A plastic bat decorated with feathers.

- A baseball glove.

- A construction worker' s boot.
- A gardening glove.

- A balloon tied to a piece of wood.
- A plastic Halloween wand.
- A fuzzy dinosaur.
- A plastic bottle of water.
- A ping pong paddle.

- A push broom.
- A bow.
- A six-pack of plastic bottles.
- A tire.
- A feather duster.
