TEAM SELECTION PROCEDURES

1. International Championships: The number of USMRA dog handler teams allowed will be in accordance with the international championship rules.
2. USMRA National Champion: The winning MR3 team at the United States Mondioring National Championship will automatically be selected as one of the entries for that year's FCI championship. That team must have a passing score at the championship in order to be eligible for automatic entry.
3. MR3 teams will have priority. Team selection will be by the highest average of three scores, all at the level that you are applying to compete: the two highest passing scores from USMRA Club trials and the USMRA National Championship score (Trial Score 1 + Trial Score 2 + National Championship Score divided by 3). Competing in the USMRA National Championship is mandatory. The two Club trial scores submitted must be under different judges, on different field locations, with a distance separating the fields by not less than 250 miles, organized by different clubs and different decoys, meaning the same decoy cannot be used for the two Club trial scores submitted. At the Board of Directors (BOD) and International Championship Committee's discretion, one score from another country may be allowed to substitute for a Club trial score. MR2 and MR1 teams will follow with the same criteria as the MR3 teams for the Level 2 and Level 1 team positions, although the winner of those levels will not receive an automatic entry to the FCI Championship.
4. In the event of a tie (of the average score), the higher score at the National Championship will be the tie breaker. If the National Championship total score is also a tie, the higher total score of the protection exercises at the National Championship will be the tie breaker.
5. The International Championship Committee will have the right to recommend additional teams in cases where the US team cannot be filled using the above criteria for team selection.
6. The team must be willing and able to incur the expense of traveling to and from the competition. The USMRA will attempt to garner member support and gain financial sponsorship from interested corporations, but this should not be construed as a guarantee for financial relief.
7. To be considered for any international event, an applicant must submit all relevant documents to the International Championships Committee Chair, at least two (2) months prior to the international championships. The deadline for declaring for the world team will be July 15.
8. Submission of the team declaration form constitutes a commitment to participation on the international team, which includes following instructions from team leader and Championship officials, appearing on field, and for ceremonies promptly, and in team uniform. IF the contestant withdraws after USMRA has made financial outlay, contestant may be responsible for losses incurred.
9. Trials that count towards International Team eligibility are any trials that occur up to 2 ½ months prior to that year's championship date.

10. The USMRA Board of Directors will approve any and all candidates recommended by the International Committee that are representing the US in international competition.
11. FMBB: The FMBB team will follow the rules and procedures of AWMA once they have been selected by AWMA to represent them at the championship. The USMRA National Championship is not a requirement to attend the FMBB.
